 **IB Economics Tutor | Harvard University | Master's in Economics**

I hold a Master's in Economics from Harvard University and have over 15 years of experience teaching IB Economics. As a qualified IB examiner and teacher, I guide students through all aspects of the IB Economics syllabus, ensuring they excel in papers, IA, and Extended Essays with real-world examples and data analysis.

Qualifications

Harvard University: Master's in Economics (2004-2006)

Stanford University: BA in Economics (2000-2004)

Vetted Tutor

Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

Tutoring Experience

For the last 15 years, I've dedicated myself to teaching IB Economics, helping students master the entire syllabus from Microeconomics to the Global Economy. As an IB examiner, I offer invaluable insights into the exam process, showing students how to maximise their performance in Papers 1, 2, and 3, as well as Internal Assessments and Extended Essays.

Having taught in various countries and educational systems, I've developed an understanding of the different ways students approach economics. I use this global perspective to help students relate economic theories to real-world applications, whether they are tackling a data response question or working on an IA commentary.

I also coach students on how to structure their essays, draw accurate diagrams, and apply mathematical techniques in economic analysis. My hands-on, personalised tutoring approach ensures each student is fully supported throughout their IB Economics journey, preparing them for top-tier university admissions.
