Tutoring Experience

I've been tutoring for over 13 years, focusing on IB Biology, AP Biology, and IGCSE Biology. Throughout my career, I've worked with students globally, tailoring lessons to suit their academic needs and guiding them through complex biology topics to ensure top performance.

In addition to school-level tutoring, I've helped students prepare for advanced exams like the USA Biology Olympiad and AP Environmental Science. Many of my students have gone on to pursue successful careers in the sciences, benefiting from the strong foundation built during our sessions.
